Assessment Report:
2019-2020:
(NURS 1105 Clinical Nursing I)

1. Name of individual compiling report: Jessica Mathisen

2. Date of submission: 10/12/20

3. Is the assessment plan

☐ an initial plan for the
program

☒ a revision of an old plan

☐ unaltered from
previous year

Course-Level Learning Outcomes-

1. What are the Course-Level Outcomes (CLOs)?

1. Demonstrate beginning competence in nursing skills associated with identified physiological and psychological concepts.
2. Administer medications safely according to legal and practice guidelines, and reason clinically to evaluate orders, assess client response, and take remedial actions when appropriate.
3. Provide safe, evidence-based, patient-centered care for stable patients with common health alterations.
4. Provide effective patient education and support for patients with simple needs and stable conditions.
5. Communicate effectively with patients, significant others, and members of the interdisciplinary team.
6. Make basic clinical decisions and document nursing care, using an Electronic Health Record (EHR) or other means of communication.

2. Which CLOs were addressed for this academic year? (2019-2020)

1. Demonstrate beginning competence in nursing skills associated with identified physiological and psychological concepts.
2. Administer medications safely according to legal and practice guidelines, and reason clinically to evaluate orders, assess client response, and take remedial actions when appropriate.

3. Provide safe, evidence-based, patient-centered care for stable patients with common health alterations.
4. Provide effective patient education and support for patients with simple needs and stable conditions.
5. Communicate effectively with patients, significant others, and members of the interdisciplinary team.
6. Make basic clinical decisions and document nursing care, using an Electronic Health Record (EHR) or other means of communication.

3. Which CLOs are being addressed in your assessment plan next academic year? (2020-2021)

1. Demonstrate beginning competence in nursing skills associated with identified physiological and psychological concepts.
2. Administer medications safely according to legal and practice guidelines, and reason clinically to evaluate orders, assess client response, and take remedial actions when appropriate.
3. Provide safe, evidence-based, patient-centered care for stable patients with common health alterations.
4. Provide effective patient education and support for patients with simple needs and stable conditions.
5. Communicate effectively with patients, significant others, and members of the interdisciplinary team.
6. Make basic clinical decisions and document nursing care, using an Electronic Health Record (EHR) or other means of communication.

4. Explain the assessment cycle.

Initial clinical course for the first semester traditional practical nursing program.

5. What are the assessment methods? Are they direct or indirect?

1. Skills lab- direct
2. Skills lab check off- direct
3. Clinical orientation to hospital facility- direct
4. 12 hour clinical- direct

6. What are the assessment goal(s)?

1. Skills lab- to learn and practice demonstrating skills competencies.
2. Skills lab check off- demonstrate proficiency in safely and accurately performing hands on skills prior to going to clinical rotation.
3. Clinical orientation to hospital facility- to become familiar with the clinical setting prior to attending clinical rotation.
4. 12 hour clinical- apply skills learned in skills lab as well as knowledge of lecture content to care of patients in the hospital setting.

7. What were the findings for this academic year? (2019-2020)

Passing grade for this course is 77%. The class average was a 77.7%. With the lowest score being a 61.8% and the highest being a 88.2%. 31 out of 40 students were successful in meeting the passing grade of 77%.

8. What is your analysis of the findings?

Effects of change in curriculum include increased patient care and outcomes, increased patient safety and less instances of incident reports.

9. What is the action plan for the next academic year? (2020-2021) Explain.

1. Utilize ATI (Assessment Technologies Institute) videos- to review hands on skills
2. VSim- to practice providing care in a simulated virtual environment
3. Healthcare Transformed- improving professionalism and professional soft skills
