TC	Emergency Medical Sciences - Paramedic	Traditional	Alabama	National Registered Paramedics National Registry of Emergency Medical Technicians	https://nremt.org/	Harold Shray, Program Director Email: hshray@uaptc.edu Phone: 501-771-6020	UA-PTC's Paramedic Technical Certificate program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP) and therefore meets education requirements to obtain licensure/certification reciprocity in every state. All qualified paramedic students must pass the National Registry of Emergency Medical Technician (NREMT) cognitive exam and practical exam in order to obtain an Arkansas state license and NREMT certification to practice. Each state accepts the NREMT certification and Arkansas licensure as proof that the paramedic has the appropriate levels of knowledge to apply for reciprocity within their state. Each state regulates the requirements to obtain licensure/certification reciprocity. Students who want to practice in another state after obtaining Arkansas licensure and NREMT certification are encouraged to contact the Office of EMS in the state you desire to work to discuss if there are additional requirements for Arkansas licensure reciprocity such as psychomotor exam, applications, fees, background checks, etc. that could be required for licensure/certification reciprocity. Each state has the ultimate authority to grant licensure/certification reciprocity to practice. Questions about specific state reciprocity should be directed to the specific EMS offices where future reciprocity is desired prior to enrolling in the program. This information can be located on the NREMT webpage (https://www.nremt.org/Resources/State-EMS-offices).

All qualified paramedic students must pass the National Registry of Emergency Medical Technician (NREMT) cognitive exam and practical exam in order to obtain an Arkansas state license and NREMT certification to practice. Each state accepts the NREMT certification and Arkansas licensure as proof that the paramedic has the appropriate levels of knowledge to apply for reciprocity within their state. Each state regulates the requirements to obtain licensure/certification reciprocity. Students who want to practice in another state after obtaining Arkansas licensure and NREMT certification are encouraged to contact the Office of EMS in the state you desire to work to discuss if there are additional requirements for Arkansas licensure reciprocity such as psychomotor exam, applications, fees, background checks, etc. that could be required for licensure/certification reciprocity. Each state has the ultimate authority to grant licensure/certification reciprocity to practice. Questions about specific state reciprocity should be directed to the specific EMS offices where future reciprocity is desired prior to enrolling in the program. This information can be located on the NREMT webpage (https://www.nremt.org/Resources/State-EMS-offices).</p>

TC	Emergency Medical Sciences - Paramedic	Traditional	South Carolina	National Registered Paramedics National Registry of Emergency Medical Technicians	https://nremt.org/	Harold Shray, Program Director Email: hshray@uaptc.edu Phone: 501-771-6060	<p>UA-PTC's Paramedic Technical Certificate program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP) and therefore meets education requirements to obtain licensure/certification reciprocity in every state. All qualified paramedic students must pass the National Registry of Emergency Medical Technician (NREMT) cognitive exam and practical exam in order to obtain an Arkansas state license and NREMT certification to practice. Each state accepts the NREMT certification and Arkansas licensure as proof that the paramedic has the appropriate levels of knowledge to apply for reciprocity within their state. Each state regulates the requirements to obtain licensure/certification reciprocity. Students who want to practice in another state after obtaining Arkansas licensure and NREMT certification are encouraged to contact the Office of EMS in the state you desire to work to discuss if there are additional requirements for Arkansas licensure reciprocity such as psychomotor exam, applications, fees, background checks, etc. that could be required for licensure/certification reciprocity. Each state has the ultimate authority to grant licensure/certification reciprocity to practice. Questions about specific state reciprocity should be directed to the specific EMS offices where future reciprocity is desired prior to enrolling in the program. This information can be located on the NREMT webpage (https://www.nremt.org/Resources/State-EMS-offices).</p>
