## Co-Curricular Assessment

A co-curricular activity is a purposeful and assessable learning opportunities that support academic programming designed to facilitate the development of the whole student.

The goal of the co-curricular learning outcomes assessment (see **Appendix A**) is to continually improve the quality of the student experience and the effectiveness and efficiency by which UA-PTC uses resources to provide co-curricular activities. Assessment efforts answer three simple questions:

1. Has the student gained knowledge, skill, and improved attitude or health?
2. How has the experience impacted student performance?
3. How can co-curricular programs be improved?

All members of the UA-PTC community (instructional and non-instructional) should include any planned co-curricular activities in their respective annual assessment plans, with appropriately aligned co-curricular learning outcomes. Annual plans can be updated at any time, but not all co-curricular activities will lend themselves to this type of annual assessment. However, all co-curricular activities that receive funding should complete an annual assessment report, and for all other types of co-curricular activities that are available to students, it is highly recommended that this form be completed annually and shared with appropriate stakeholders. The college expects programs/departments/schools to make co-curricular changes and budget requests based in part upon assessment findings.

A primary goal for each co-curricular assessment is to include at least one direct measure of student learning, which is could be accomplished through the use of surveys, quizzes, projects, and interviews. In addition to direct measures, you may also use indirect methods to assess student achievement such as numbers of participants and satisfaction surveys.

All co-curricular activities will be asked to submit an assessment report to [assessment@uaptc.edu](mailto:assessment@uaptc.edu) within 30 days after the scheduled activity.

### Part A: Identification

---

Name of co-curricular:	<u>Dorothea Lange Photography Exhibit</u>
Name of individual compiling report:	<u>Kate Earney</u>
Date of submission:	<u>10/14/2020</u>

## Part B: Outcomes and Mapping

1. What are your Co-Curricular Outcomes (CCLOs)? If your co-curricular activity has a mission statement, please include your mission statement as well.

*CCLO 2 (Inclusiveness), CCLO 3 (Social Responsibility), CCLO 4 (Mindfulness), CCLO 5 (Lifelong and Global Learning)*

2. How does your co-curricular activity relate to the school's co-curricular learning outcomes?

To help mapping your learning outcomes to the school's overall co-curricular learning outcomes, please check any applicable boxes below for any skills, knowledge, or values related to the outcomes mentioned above. If you don't see any that apply to your CCLOs, please explain under "Other" how your activity relates to a campus CCLO.

3. What are the assessment methods? Are they direct or indirect?

*For this exhibit we used a direct assessment method of a virtual satisfaction survey. Students were also given access to the exhibit online through a VR tour.*

4. What is the assessment goal(s)?

*The assessment goals for this exhibit were to determine how many students visited the gallery (either in person or online), how satisfied they were with the exhibit itself, and how effective the VR tour was in showcasing the photographs in the exhibit.*

5. What is the assessment plan for assessment for the next academic year? Is the assessment plan (*Check one*)

- A. a new assessment plan (*explain below*)     B. a revision of the previous plan (*explain below*)     C. unaltered from previous year

If you answered either A. or B. above, please explain below:

*Since there are fewer students on campus this semester due to COVID-19, the means of access to the exhibit and the means of assessing the success of this exhibit had to be adapted. With the added benefit of the VR access to the gallery, students were provided with more ways to view the photography exhibit. This made it easier to drive traffic to the online survey, providing us with more data to examine.*

### Part C: Assessment Findings

6. What were the findings for this academic year (2019-2020)?

*All students (34) who took the survey reported that they enjoyed the exhibit and were satisfied the various means of accessing it. They also reported a high level of appreciation for the VR tour. (See attached survey results.)*

7. What is your analysis of the findings?

*Virtual reality is a big hit among our students. In future semesters, we will always provide virtual access to our gallery exhibits.*

8. What changes were implemented this year based on last year's findings, if applicable?

*We had to pivot to an online accessibility for this exhibit due to COVID-19.*

9. What budgetary resources, if any, are needed for your program based on your assessment findings? (Please note that if you require financial assistance for your cocurricular, the amount is noted here)

*None.*

## Appendix A
