Course-Level Assessment Report

Course: HIMT 1301 Medical Terminology

Academic Year: 2022-2023

Due to Chair/Program Director and Faculty Assessment Chair by
September 1

1. Name of course: HIMT 1301 Medical Terminology
2. Name of individual(s) compiling report: Bryce Miller, Kyle Johnston, Kathy Trawick
3. Date of submission: 09/15/2023
4. Academic year: 2022-2023

Course-Level Learning Outcomes

1. What are the Course-Level Outcomes (CLOs)?

1. Analyze medical words by dividing them into component parts of prefixes, suffixes and root words to make understanding of meaning
2. Synthesize health records to determine medical terms usage in their context.
3. Analyze discrepancies in spelling, pronunciation or usage of medical terms when reviewing medical reports.
4. Gain practice in reading and understanding medical language in context from readings as assigned.
5. Relate the medical terms to the anatomical structure and physiological functioning of the body.
6. Use resource materials (medical dictionaries) appropriately.
7. Learn medical abbreviations, their meanings, and context usage in medical reports.
8. Learn singular and plural forms of medical terms in context usage in medical reports.
9. Spell, pronounce and correctly use numerous medical terms chosen by the instructor from the course text.

2. Which CLOs were addressed for the academic year?

1. Analyze medical words by dividing them into component parts of prefixes, suffixes and root words to make understanding of meaning
2. Synthesize health records to determine medical terms usage in their context.
3. Analyze discrepancies in spelling, pronunciation or usage of medical terms when reviewing medical reports.
4. Gain practice in reading and understanding medical language in context from readings as assigned.
5. Relate the medical terms to the anatomical structure and physiological functioning of the body.
6. Use resource materials (medical dictionaries) appropriately.
7. Learn medical abbreviations, their meanings, and context usage in medical reports.
8. Learn singular and plural forms of medical terms in context usage in medical reports.
9. Spell, pronounce and correctly use numerous medical terms chosen by the instructor from the course text.

3. Which CLOs are being addressed in your assessment plan in the upcoming academic year?

1. Analyze medical words by dividing them into component parts of prefixes, suffixes

- and root words to make understanding of meaning
2. Synthesize health records to determine medical terms usage in their context.
 3. Analyze discrepancies in spelling, pronunciation or usage of medical terms when reviewing medical reports.
 4. Gain practice in reading and understanding medical language in context from readings as assigned.
 5. Relate the medical terms to the anatomical structure and physiological functioning of the body.
 6. Use resource materials (medical dictionaries) appropriately.
 7. Learn medical abbreviations, their meanings, and context usage in medical reports.
 8. Learn singular and plural forms of medical terms in context usage in medical reports.
 9. Spell, pronounce and correctly use numerous medical terms chosen by the instructor from the course text.

4. How does this report connect or map to program-level or institutional-level outcomes?

(ILO link: <https://uaptc.edu/college-academics/resources/student-learning-outcomes>
PLO list will vary depending on your Program.)

The Health Information Department, consistent with the College's mission and the Division's objectives, encourages the success of its students in all technical fields and academic disciplines by promoting:

1. Written Communications - Students will demonstrate written communication skills appropriate for business situations.
2. Oral Communications - Students will create and effectively deliver oral presentations that are concise and informative and conduct research appropriate to the task at hand.
3. Teamwork - Students will demonstrate effective interpersonal skills and the ability to work effectively in teams of diverse composition.
4. Quantitative Reasoning and Financial Analysis Skills - Students will demonstrate the ability to perform basic financial analysis.
5. Computer Skills - Students should demonstrate proficiency in the use of general productivity software in business applications with an emphasis on Microsoft Excel and Microsoft Word.
6. Competency in Discipline - Students will demonstrate the ability to apply theories and methods to the solution of common types of problems related to their academic field.
7. Global Perspectives - Students will demonstrate an understanding of global dimensions of business including socio-cultural, political-legal, technological, and economic environments.

I, D, or M is used to indicate that a learning outcome is introduced, developed to foster more sophistication, or demonstrated at a level of mastery acceptable for graduation within the program.

Additional courses may be marked with an R to indicate reinforcement of a program learning outcome.

For each Course Level Outcome assessed this academic year, please complete the chart below, providing the assessment data for both fall and spring, and then a total for the academic year.

<p>Assessment Methods- How did you assess student learning (define direct assessment methods used) in relation to the course level outcome being reported?</p> <p>Note: If more than one assessment method was used, you may insert an additional row.</p>	<p>Students across all sections completed common assignments, quizzes, and exams. The deliverables from the course are linked to specific course curriculum competencies. Overall grade analysis was performed to determine proficiency</p>	
<p>Were indirect assessment methods also used to assess students? If 'yes', please describe the method used.</p>	<p>Yes HIT students are required to successfully pass each course with a 70% overall weighted grade or better.</p>	
<p>How do you define success for an individual student on the CLO assessment assignment or measure?</p>	<p>Student scores 70% or better overall weighted grade in the course linked to specific course curriculum competencies.</p>	
<p>How do you define success for the course level outcome? What is the benchmark for the Course Level Outcome?</p>	<p>85% of students in the course achieve success covering the course specific curriculum competencies with an overall weighted grade of 70% or better.</p>	

How many students completed the assessment, and how many were successful?	Fall 80 students assessed 69 successful (86.25% success rate)	Spring & Summer 221 students assessed 192 successful (86.88% success rate)
Academic Year Total (add the numbers from Fall and Spring)	301 students assessed 261 successful (86.71% success rate)	
Was the benchmark/goal for this academic year met?	Yes	
Were standardized rubrics, tests, or checklists used?	Yes	

4. What is your analysis of the findings?

For the specific course related curriculum competencies listed above we had an 86.71% success rate on students achieving an overall weighted grade of 70% or better. The learning objectives for the curriculum competencies were met.

6. What is the action plan for the upcoming academic year?

Explain.

For the AHIMA related curriculum competencies reviewed, we will continue to use the deliverables from the course that are linked to specific AHIMA related curriculum competencies. Instructors will meet at the end of the academic year to review results and data will be examined across modalities to determine any necessary changes for the next academic year. The HIT program director will assist when needed.
