

RFP-25-012 Electrical Maintenance Services Questions from Contractors

- 1. Vendor(s) must include all pricing on the Official Solicitation Price Sheet - Where can I locate the template for the "Price Sheet"? Or do we make our own template?**

We can provide this to you all. Generally, the contractor provides pricing, but given this is more a rate pricing, we will send one.

- 2. Combined certificate form - What do we put for our Vendor #?**

You can leave this part blank. Procurement will take care of that part.

- 3. PROHIBITION OF EMPLOYMENT OF ILLEGAL IMMIGRANTS - Will we be notified when to use the link, or do we go ahead and do it before the bid due date?**

In this case, either way is okay with me.

- 4. INFORMATION FOR EVALUATION – SOLUTION - Is there an example for this section like the examples for the "Risk" & "Experience" sections?**

There is not. The Solution subsection included in the Technical Proposal Packet allows Prospective Contractors to differentiate themselves based on their proposed solution and/or approach to solve UAPTC's specific needs. Prospective Contractors should provide a high-level overview of the Prospective Contractor's proposed solution and/or approach to services using the Requirements outlined in the RFP. Proposed solutions should be non-technical and include the Prospective Contractor's recommendations for meeting the objectives and Requirements of the RFP. Additional service options and recommendations above and beyond those included in the proposed solution should be included in the Recommended Options Form.

**RFP-25-012 ELECTRICAL MAINTENANCE
SERVICE OFFICIAL SOLICITATION PRICING
SHEET**
