

RFP-26-009 Kitchen Preventative Maintenance Response to Questions

In Section 2- 2.2.H it states the minimum warranty on parts purchased through the vendor shall be one year. The manufacturers only provide a 90 day warranty on parts. Per Section 1- 1.5.A-B this is deemed mandatory and shall cause the proposal to be disqualified, is this accurate?

There is no intent to disqualify any potential proposals based on term length of warrantied parts. As long as it is stated in your proposal, it will be evaluated with every other proposal.
