Commencement Mace

The ceremonial mace, a symbol of scholarship and integrity since the 11th century, is used to lead the academic procession at commencement and other special ceremonial occasions, signifying the importance of the event and the authority of the college.

Student Regalia

As part of the official regalia, all graduates wear black gowns, black mortarboard academic caps with black tassels, and each student receives a white stole with the UA-PTC emblem.

The red, white and blue cord designates students who have served in the United States Armed Forces. The colors represent the colors of the nation they have served, and the sacrifices they have made answering the call to military service. This cord is given to all Veterans who are completing a degree or certificate.

Blue and red cords are worn by honor graduates with a grade-point average of 3.5 or higher.

The red and blue double tied cord designated members of UA-PTC's Student Senate.

A gold stole and tassel with the PTK emblem designates members of Phi Theta Kappa, an honor society for students enrolled in a two-year associate degree program and who have a grade-point average of 3.5 or higher.

The purple cord designates members of Lambda Epsilon Chi (LEX), an honor society for paralegal students with an overall grade point average of 3.25 and above, a grade point average in paralegal classes of 3.50 and above, and successful completion of two-thirds of their academic program.

The green and gold cord designates members of Sigma Kappa Delta English honors society.

A white stole with the blue HOSA logo designates a member of the HOSA -future health professional association.

The blue ribbon with silver medallion designates recipients of student milestones awards. Celebrating Student Milestones honors the academic achievements of students.

Faculty and Staff Regalia

The square, tasseled graduation hat is a modern symbol of academic accomplishment, but has its roots in the fashion trends of medieval Europe. Gowns were worn as early as the 12th century. Their primary purpose then was to protect the wearer against the elements. When accepted styles of dress began to change in the 16th century, people in the legal and medical professions as well as scholars in the universities retained the traditional dress of gowns and hoods.

Styles and colors had no particular meaning until 1985 when an “Inter-collegiate Code” established design and color criteria. The bachelor’s gown has long pointed sleeves and is designed to be worn closed. The master’s gown has an oblong sleeve open at the wrist; the rear part of its oblong shape is square cut, and the front part has an arch cut away. The gown may be worn open or closed. The doctor’s gown is faced down the front with velvet with three bars of the same across the sleeves. It may be worn open or closed. The academic hood is the visual representation of the academic degrees. The color represents the academic discipline and the lining represents the official colors of the college or university where the degree was conferred. The hood is worn by faculty and staff with master’s or doctoral degrees.
